Re: 73 Keating St, 74 Silurian Dr, 78 Silurian Dr, 82 Silurian Dr, 83 Silurian Dr, 146 Starwood Dr, 148 Starwood Dr – Driveway Width Minor Variance Applications

Dear Committee of Adjustment,

Fusion Homes is pleased to submit 7 separate minor variance applications for the above noted addresses to permit driveways with widths wider than the permitted 3.5m stated in section 4.13.7.2.3 of the zoning by-law.

The lots are located within the Cityview subdivision and are zoned R.2-6 which permits single detached homes with a minimum lot frontage of 9.5m and a maximum of 14.5m for all lots except corner lots.

The minor variance being requested for 73 Keating, 74 Silurian, 82 Silurian, 146 Starwood, and 148 Starwood are each the same. Fusion Homes is seeking relief from section 4.13.7.2.3 of the zoning by-law to permit a driveway width of 6.0m whereas the zoning permits a maximum driveway width of 3.5m.

Fusion Homes is requesting a minor variance for 83 Silurian Drive for relief from section 4.13.7.2.3 of the zoning by-law to permit a driveway width of 6.5m whereas the zoning permits a maximum driveway width of 3.5m.

Each application includes a separate application form and fee but has been submitted under this single cover letter as they are all similar in nature and scale of the variance being requested.

Tests of a Minor Variance

1. Do the Minor Variances meet the intent of the Official Plan?
The proposed development is in line with the City's Official Plan by providing low-density residential units within a designated greenfield residential area.

November 10, 2020

2. Do the Minor Variances meet the intent of the Zoning By-Law?

The proposed development is in line with all zoning regulations within the R.2-6 specialized zone. The lots within the zone must be between 9.5m to 14.5m lot frontage except for corner lots. 83 Silurian Drive is a corner lot with a frontage of 20.10m. The remaining lots range from 12.0m to 12.63m frontage. Due to the large size of the lots, double garage and driveways are appropriate and fit in with the scale of the lot. As such, a minor variance for to permit increased driveway width will allow the development of residential homes that are in accordance with the R.2-6 specialized zone and therefore meets the intent of the zoning by-law.

3. Are the Minor Variances minor in nature?

The variance seeks relief from section 4.13.7.2.3 of the zoning by-law to permit a driveway width of 6.5m for 83 Silurian, and 6.0m for the remaining lots mentioned above. The minor variances are meant to permit a double driveway on lots with a minimum frontage of 12.0m. When considering the size of the lots, an increase of 3.0-3.5m for a double driveway on these lots is minor in nature.

4. Are the Minor Variances desirable?

The minor variances requested will be appropriate and desirable for the size of the lots. A 6.0m driveway on lots with frontage of 12.0m leaves 6m of non-paved area on the lot to maintain a desirable streetscape with ample space for landscaping. Providing a 6.0m driveway for lots of this size is also provides sufficient parking for residents which will result in desirable outcomes for both the City and future residents of the neighbourhood.

With this letter, we are also enclosing the following:

- The completed minor variance application forms for each of the 7 lots.
- Cheques in the amount of \$950.00 for each of the 7 lots.

If you have any questions regarding this application, please do not hesitate to contact us.

Yours sincerely,

Charlotte Balluch

Planning & Development Analyst

NATURE AND EXTENT OF RELIEF APPLIED FOR (variances required):

Seeking relief from zoning by-law section 4.13.7.2.3 to permit a driveway width of 6.0m whereas the zoning permits a maximum driveway width of 3.5m.

Why is it not possible to comply with the provision of the by-law? (your explanation)

The lot is within specialized zone R.2-6 which permits 40 and 50ft homes. Homes of this size are designed to include a 2-car garage. A 6.0m driveway is appropriate for lots of this size to accomodate the 2-car garage while maintaining ample front yard landscaped area.

Re: 73 Keating St, 74 Silurian Dr, 78 Silurian Dr, 82 Silurian Dr, 83 Silurian Dr, 146 Starwood Dr, 148 Starwood Dr – Driveway Width Minor Variance Applications

Dear Committee of Adjustment,

Fusion Homes is pleased to submit 7 separate minor variance applications for the above noted addresses to permit driveways with widths wider than the permitted 3.5m stated in section 4.13.7.2.3 of the zoning by-law.

The lots are located within the Cityview subdivision and are zoned R.2-6 which permits single detached homes with a minimum lot frontage of 9.5m and a maximum of 14.5m for all lots except corner lots.

The minor variance being requested for 73 Keating, 74 Silurian, 82 Silurian, 146 Starwood, and 148 Starwood are each the same. Fusion Homes is seeking relief from section 4.13.7.2.3 of the zoning by-law to permit a driveway width of 6.0m whereas the zoning permits a maximum driveway width of 3.5m.

Fusion Homes is requesting a minor variance for 83 Silurian Drive for relief from section 4.13.7.2.3 of the zoning by-law to permit a driveway width of 6.5m whereas the zoning permits a maximum driveway width of 3.5m.

Each application includes a separate application form and fee but has been submitted under this single cover letter as they are all similar in nature and scale of the variance being requested.

Tests of a Minor Variance

1. Do the Minor Variances meet the intent of the Official Plan?
The proposed development is in line with the City's Official Plan by providing low-density residential units within a designated greenfield residential area.

November 10, 2020

2. Do the Minor Variances meet the intent of the Zoning By-Law?

The proposed development is in line with all zoning regulations within the R.2-6 specialized zone. The lots within the zone must be between 9.5m to 14.5m lot frontage except for corner lots. 83 Silurian Drive is a corner lot with a frontage of 20.10m. The remaining lots range from 12.0m to 12.63m frontage. Due to the large size of the lots, double garage and driveways are appropriate and fit in with the scale of the lot. As such, a minor variance for to permit increased driveway width will allow the development of residential homes that are in accordance with the R.2-6 specialized zone and therefore meets the intent of the zoning by-law.

3. Are the Minor Variances minor in nature?

The variance seeks relief from section 4.13.7.2.3 of the zoning by-law to permit a driveway width of 6.5m for 83 Silurian, and 6.0m for the remaining lots mentioned above. The minor variances are meant to permit a double driveway on lots with a minimum frontage of 12.0m. When considering the size of the lots, an increase of 3.0-3.5m for a double driveway on these lots is minor in nature.

4. Are the Minor Variances desirable?

The minor variances requested will be appropriate and desirable for the size of the lots. A 6.0m driveway on lots with frontage of 12.0m leaves 6m of non-paved area on the lot to maintain a desirable streetscape with ample space for landscaping. Providing a 6.0m driveway for lots of this size is also provides sufficient parking for residents which will result in desirable outcomes for both the City and future residents of the neighbourhood.

With this letter, we are also enclosing the following:

- The completed minor variance application forms for each of the 7 lots.
- Cheques in the amount of \$950.00 for each of the 7 lots.

If you have any questions regarding this application, please do not hesitate to contact us.

Yours sincerely,

Charlotte Balluch

Planning & Development Analyst

Re: 73 Keating St, 74 Silurian Dr, 78 Silurian Dr, 82 Silurian Dr, 83 Silurian Dr, 146 Starwood Dr, 148 Starwood Dr – Driveway Width Minor Variance Applications

Dear Committee of Adjustment,

Fusion Homes is pleased to submit 7 separate minor variance applications for the above noted addresses to permit driveways with widths wider than the permitted 3.5m stated in section 4.13.7.2.3 of the zoning by-law.

The lots are located within the Cityview subdivision and are zoned R.2-6 which permits single detached homes with a minimum lot frontage of 9.5m and a maximum of 14.5m for all lots except corner lots.

The minor variance being requested for 73 Keating, 74 Silurian, 82 Silurian, 146 Starwood, and 148 Starwood are each the same. Fusion Homes is seeking relief from section 4.13.7.2.3 of the zoning by-law to permit a driveway width of 6.0m whereas the zoning permits a maximum driveway width of 3.5m.

Fusion Homes is requesting a minor variance for 83 Silurian Drive for relief from section 4.13.7.2.3 of the zoning by-law to permit a driveway width of 6.5m whereas the zoning permits a maximum driveway width of 3.5m.

Each application includes a separate application form and fee but has been submitted under this single cover letter as they are all similar in nature and scale of the variance being requested.

Tests of a Minor Variance

1. Do the Minor Variances meet the intent of the Official Plan?
The proposed development is in line with the City's Official Plan by providing low-density residential units within a designated greenfield residential area.

November 10, 2020

2. Do the Minor Variances meet the intent of the Zoning By-Law?

The proposed development is in line with all zoning regulations within the R.2-6 specialized zone. The lots within the zone must be between 9.5m to 14.5m lot frontage except for corner lots. 83 Silurian Drive is a corner lot with a frontage of 20.10m. The remaining lots range from 12.0m to 12.63m frontage. Due to the large size of the lots, double garage and driveways are appropriate and fit in with the scale of the lot. As such, a minor variance for to permit increased driveway width will allow the development of residential homes that are in accordance with the R.2-6 specialized zone and therefore meets the intent of the zoning by-law.

3. Are the Minor Variances minor in nature?

The variance seeks relief from section 4.13.7.2.3 of the zoning by-law to permit a driveway width of 6.5m for 83 Silurian, and 6.0m for the remaining lots mentioned above. The minor variances are meant to permit a double driveway on lots with a minimum frontage of 12.0m. When considering the size of the lots, an increase of 3.0-3.5m for a double driveway on these lots is minor in nature.

4. Are the Minor Variances desirable?

The minor variances requested will be appropriate and desirable for the size of the lots. A 6.0m driveway on lots with frontage of 12.0m leaves 6m of non-paved area on the lot to maintain a desirable streetscape with ample space for landscaping. Providing a 6.0m driveway for lots of this size is also provides sufficient parking for residents which will result in desirable outcomes for both the City and future residents of the neighbourhood.

With this letter, we are also enclosing the following:

- The completed minor variance application forms for each of the 7 lots.
- Cheques in the amount of \$950.00 for each of the 7 lots.

If you have any questions regarding this application, please do not hesitate to contact us.

Yours sincerely,

Charlotte Balluch

NATURE AND EXTENT OF RELIEF APPLIED FOR (variances required):
Relief on 3 counts from By-Law 4.7, Table 4.7 Row 3 to allow the following:
1 - Setback of 0.09m for porch stairs vs By-Law requirement of 2.0m
2 - Setback of 1.52m for porch vs By-Law requirement of 2.0m
3 - Projection of 4.52m for porch vs requirement of 2.4m
Please see attached description on separate sheet for additional detail.

Why is it not possible to comply with the provision of the by-law? (your explanation)
The purpose for redesigning the porch is primarily for safety, specifically safety for our children, as the current stairs lead directly into the driveway and are blocked from view due to the house. Moving the stairs to the front removes this hazard, however due to the age of the house and the minimal setback from the front property line this makes it impossible to comply with the current By-Laws written well after the house was built. Additionally the new design will provide protection from the elements when entering and exiting the house, which the current porch does not, as well as increasing the aesthetic appearance of the porch.
For further and more detailed explanations please see separately attached details

***ATTACHMENTS RELATING TO PAGE 2 FOR EXTENT & REASONING:**

Nature and Extent of Relief applied for:

Relief from the by-law 4.7 Table 4.7 Row 3, which would allow us to exceed the minimum set back required of 2 metres to build a new covered porch with stairs coming off the front, which will replace our current uncovered porch with stairs off the side. The porch will not encroach in the setback, however the stairs will be setback 0.09m from the front property line vs the by-law requirement of 2m, the porch itself will be setback 1.52m vs the by-law requirement of 2m and the porch projection from the 6m setback will be a max of 4.52m vs the by-law requirement of 2.4m.

Why is it not possible to comply with the provision of the by-law?

Our current porch does not provide any protection from the elements when trying to get in and out of the house, especially with small children. Also the current stairs come down to the side directly into the driveway, which when cars are parked can be troublesome maneuvering larger items and children around vehicles to get to the stairs. The stairs coming down to the side into the driveway also creates a blind spot for vehicles reversing for anyone, specifically children, coming down the stairs.

We have designed the new porch to be covered, slightly wider with stairs coming off the front to avoid these issues previously mentioned, we are hoping that this will also be more aesthetically pleasing and potentially add value to our home.

By doing these adjustments it means the re-located stairs coming off of the front of the porch will breach the 2 metre setback in the listed by-law due to how far forward on the property the house was built in 1923, however this is also the case with the existing porch that has been grandfathered in.

Note that this change not exceed the distance that both of our current neighbours porches and stairs extend from their house's and as such will not appear out of place in the neighbourhood.

Regarding: 1 Calgary Avenue, Guelph, ON N1E 4M1

City Planners and Committee of Adjustment Members,

We are writing you to explain our situation. The application and drawings we have submitted to Committee of Adjustment for minor variance include dimensions and drawings of our proposed fence location which is slightly different than the existing fence location. We are aware that small portion of the fence is currently built on city property. That happened unintentionally. However drawings do show this fence built on property line. We are hoping our application for minor variance will be approved and then we will correct the portion of the fence as indicated on the drawings.

Either way, we will follow the directions of Committee of Adjustments in regards to this matter.

Sincerely,

Milan and Viera Svitek

NATURE AND EXTENT OF RELIEF APPLIED FOR (variances required):
** A Variance to Section 5.1.2, Row 7 to permit a side yard addition to be situated 0.10m from the side lot line.

Why is it not possible to comply with the provision of the by-law? (your explanation)
The enclosed stairwell was erected many years and many owners ago. The Neighbour in which it is beside knew of the Structure when he bought in 2016 and did not have an impact on his decision to buy. The structure seems to be built to Code using proper footings, concrete stairs and concrete rebar walls, 2 X 4 above ground walls and has trusses & shingles. This side entrance was never brought to my attention that it would need a variance to pass the City of Guelph's Code when I purchased the property. At this time it would be very costly and a lot of work to dismantle since it has been permanently Affixed to the property from what I can tell for decades. By just removing the 2 X 4 walls, roof & trusses would cause other Problems and become a trip hazard during winter months. It would also may require having to refinish the whole side of the House since it has been there for so long.

Official Plan Designation: Medium Density Residential	Current Zoning Designation: C.1-8

NATURE AND EXTENT OF RELIEF APPLIED FOR (variances required):
6.1.3.8.1
We are looking to vary section C-1.8 by law 6.1.3.8 of the zoning bylaw. Variance is required in order to increase the number of employees allowed to work at the personal service establishment.
We would like to increase the number of employees from 2 to 8 including the owner.
There are ten (10) parking spaces available for the personal service establishment, and two (2) parking spaces available for the residence above.

Why is it not possible to comply with the provision of the by-law? (your explanation)
The current by-law stipulates that the personal service establishment may only operate with two (2) employees, one (1) being the owner and one (1) being an employee of the owner. It is challenging for the personal service establishment to cover overhead let alone produce a net profit with only two (2) employees.
