Workshop Objectives:

- Build understanding of the project, clarity on role of the Public Advisory Committee (PAC)
- Provide initial opportunity for input from committee members, identify the key concerns and issues to be addressed within the project
- To clarify this group’s aspirations for the outcome of the project

The PAC will act as an advisory committee whose members have been selected to provide input and advice based on their interest and/or experience in waste management, or more generally as community stakeholders. The PAC will be a forum for in-depth discussion of key study issues, concerns and solutions. As with all advisory committees within the City of Guelph, the Solid Waste Management Master Plan (SWMMP) Review PAC is not a decision-making body and will not have the authority to vote or commit City resources, however the committee will advise throughout the process including the development of the recommendations.
