

Council Memo

To	City Council
Service Area	Office of the Chief Administrative Officer
Date	Monday, December 14, 2020
Subject	Proposed Amendment: 2021 Advocacy Priorities

At the Committee of the Whole meeting on December 7, 2020 there was a request to include language supporting the continued advocacy for the protection of Guelph's groundwater as a priority formally identified in the 2021 Advocacy Priorities.

Staff recommend that under the Strategic Plan priority of Sustaining Our Future, a third focus area be added which states, 'protect groundwater sources for Guelph's drinking water'.

Sustaining Our Future (amended):

1. Advancing the City's 100% renewable energy and net zero carbon community by 2050 goals;
2. Advocating for funding for brownfield remediation; and
3. Protect groundwater sources for Guelph's drinking water.

Should Council wish to facilitate this change they can modify recommendation #2 of Intergovernmental Relations Strategic Framework and 2021 Advocacy Priorities to read "That Council approve the 2021 Advocacy Priorities, as amended."
