Engagement summary | Voting methods

CITY OF **Guelph**
Making a Difference

Data from the telephone survey and online survey have been summarized to show an overall picture of engagement findings. Council and the public are encouraged to review the summery reports for each survey for more detailed information.

The Oracle Poll telephone survey reflects 600 statistically significant responses and the EHQ online survey reflects 715 responses.

For the purpose of summarizing data, options of good/very good, poor/very poor and neutral/unsure have been totaled.
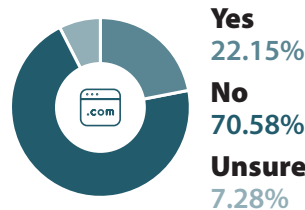

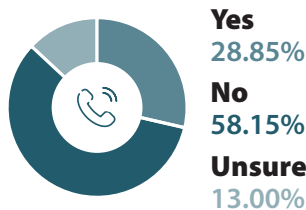

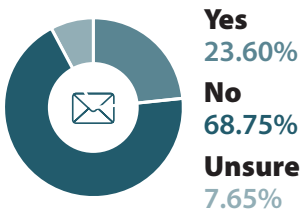

Questions

How would you rate your understanding of how to vote using the following three remote voting methods?

|	✉	☎	.com
Good and very good	73.92%	58.90%	76.58%
Poor and very poor	9.70%	17.84%	12.21%
