Hello,

This email is to confirm that I, Alexandra Whate, the owner of [REDACTED] Marigold Drive, Guelph, ON N1C 1G7 support the plan for the shed being put in at the adjoining property, 54 Milson drive. I support the application for variance that would allow the shed to be placed with a setback of 2 feet from the property line. I would be happy to discuss further if needed and can be reached at [REDACTED].

Thanks,  
Alexandra Whate

Hi Alexandra,

As discussed please see attached the site plan for our backyard. Adam will be submitting a minor variance later this week to allow the setback for the shed to be 2 feet instead of 4.5m. 2 feet is the standard setback for most backyards; however, since we are a corner lot the shed is technically in the side yard which requires the greater setback. The proposed shed is 10 x 10 feet with a 2 foot overhang on one side which does not require a building permit.

Please reply confirming your support for the plan and your address. Note that Adam will be submitting your email along with our plan to the city.

Thank you again,

Katie
