

I am surprised and disappointed to see that we are fighting for our neighborhood again, we were told 2 years ago when we made it very clear that we are dead set against any development of Rolling Hills. We were told at a minimum this wouldn't even be discussed for at least 5 years. Why is this open for debate before these 5 years are up?

I see that the lots that butt against Clair rd are designated for rezoning for medium density, and are on the city's imminent chopping block. This 100% will start a domino effect that will negatively impact all of us.

Neighbouring homes will be next up to go through this impact and will also now suffer through years of construction noise and dust.

I recall mayor Cam telling us that Guelph needs to meet certain growth goals or we do not receive provincial grants. Have we asked the citizens of Guelph to weigh in on this particular issue? Do the people of Guelph want to force this population growth in our city? Infrastructure in our city is a nightmare, do we want to make that even worse?!

Have any of you tried driving on Clair rd east of the Keg around 5:00pm lately, or anywhere on Victoria between Arkell and Clair? This is the primary route for all 18 wheelers heading to any part of the commercial/factorys on the east end, and it's single lane! Do we really want to increase our population and congestion in this area?

Guelph needs places for families who are looking at higher end homes. Guelph needs communities that attract owners of companies, CEO's, doctors to encourage growth and development and provide job opportunities. Canada is getting more rich people every day and that trend won't stop, they're actually getting richer faster, these people want property like Rolling hills and our 4 acre estate lots offer the privacy and comfort surroundings that they will be looking for. Other cities already provide these communities.

We will need more areas like rolling hills and estate subdivisions, not less.

We have 6 kids, we are in our 40's, we plan on growing old in our home in rolling hills. We are 100% opposed to any development or rezoning ever in rolling hills! We will fight and spend whatever it takes to keep rolling hills out of this development and any future developments!

Jason and Amanda Martin, Carlaw place
