From: Kelly Hunter, Guelph Resident and homeowner in the Rolling Hills Neighborhood

Re: Shaping Guelph – Growth Management Strategy and Land Needs Assessment

Date: January 14, 2022.

Dear Mayor, City Councillors and Planners

I am writing to say thank city planners for recognizing parts of the Rolling Hills Community as estate residential. Aside from the fact that Rolling Hills has been our home for over 20 years, there are environmental factors that must be taken into consideration. Given the significant natural green space, extensive tree canopy, robust wildlife population and the importance of the neighbourhood as a significant groundwater recharge area, any development in the area would be counterproductive.

I encourage city planners to think outside the planning box to help the city meet its targets while protecting and maintaining the Rolling Hills Community as an estate residential zone.

Sincerely,

Kelly Hunter
