

At its meeting last evening, the Executive Committee of the Old University Neighbourhood Residents' Association (OUNRA) fully endorsed the proposal to use the former Holiday Inn site for student accommodation. This is an ideal place for student residential development. It offers excellent access to the campus and is close to many amenities that will meet the needs of students. The development should take some of the pressure off the Old University Neighbourhood which currently contains more than 200 student houses and make it more likely that more of these homes will be returned to family houses which are in short supply in Guelph.

The Executive, OUNRA.
