

# Community Benefit Charge & Parkland Dedication By-law

**Special Council Meeting** 

April 13, 2022

# Agenda

1. Growth Revenue Overview

2. Community Benefit Charge Study and Recommendations

3. Parkland Dedication By-law Update

4. Summary

### 1. Growth Revenue Overview

#### Introduction

The purpose of this meeting is to solicit council direction and feedback on the Community Benefit Charge (CBC) and the Parkland Dedication By-law (PD) update.

We have conducted a CBC Study and Watson & Associates Economists Ltd. will be sharing findings and recommendations from this study.

We are completing a PD By-law update based on the legislative requirement. We are sharing a summary of changes in today's meeting.

#### Growth Revenue

# Capital Budget

City Building (5-15%)

Infrastructure Renewal (60-80%)

Growth (15-20%)

Tax / Rate Funding

Tax / Rate Funding

DCs

PD

Tax/ Rate Funding

### **Timelines**

| GROWTH REVENUE STUDY                  | START               | COMPLETION          |  |  |
|---------------------------------------|---------------------|---------------------|--|--|
| 1. Current DC Study update (complete) | Second Quarter 2021 | Fourth Quarter 2021 |  |  |
| 2. Community Benefits Charge          | Third Quarter 2021  | Third Quarter 2022  |  |  |
| 3. Parkland Dedication review         | Third Quarter 2021  | Third Quarter 2022  |  |  |
| 4. Comprehensive DC Study Update      | Second Quarter 2022 | First Quarter 2024  |  |  |

This meeting will discuss 2 and 3.

The next stage component will be a full DC update starting later this year.

# 2. CBC Study & Recommendations

#### Community Benefits Charge Council Special Meeting

City of Guelph April 13, 2022

#### Agenda

What is a Community Benefits Charge (C.B.C.)

Methodology

C.B.C. Land Valuation and Eligible Growth

Cost Allocations

Capital Costs and Maximum Charge

Outstanding Items to be Confirmed

**Next Steps** 

# What is a Community Benefits Charge

City of Guelph 2022 C.B.C. Strategy

#### **Current Legislation**

#### What is a Community Benefits Charge?

The COVID-19 Economic Recovery Act (Bill 197) received Royal Assent on July 21, 2020, and amendments came into effect on September 18, 2022

D.C.A. amendments include changes to eligible services

All services included in the City's current D.C. By-law remain eligible under the D.C.A., except for Parking Services and some Studies.

#### Planning Act Amendments

Community Benefits Charges may be imposed by By-law for buildings or structures with five storeys or more **and** with 10 or more residential units.

The prescribed maximum C.B.C. rate (as per O. Reg. 509/20) is 4% of the property's land value prior to the day of building permit issuance.

#### What is a Community Benefits Charge?

#### Under Bill 197

Section 37(2) allows local/single tier municipalities to impose community benefits charges against land to pay for the capital costs of facilities, services and matters required due to development/redevelopment.

To implement a charge, a C.B.C. by-law must be passed by Council.

Before passing a C.B.C by-law under subsection (2), a strategy must be prepared that:

identifies the facilities, services and matters that will be funded with community benefits charges; and

complies with any prescribed requirements (defined by O. Reg. 509/20)

# Methodology

City of Guelph 2022 C.B.C. Strategy

#### Methodology of C.B.C. Strategy

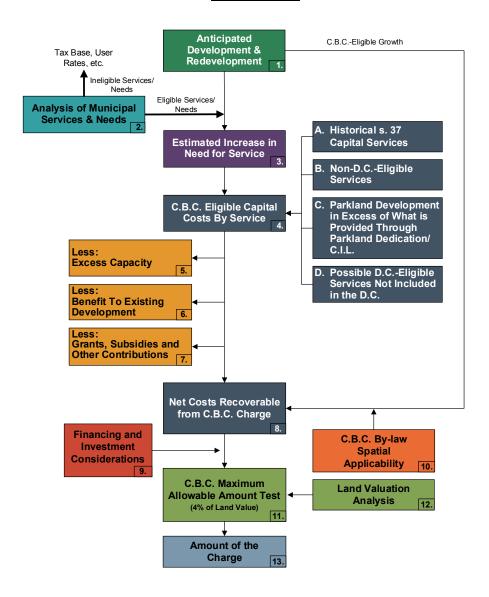

Community Benefits Charges will only apply to developments that are 5 storeys or more and have a minimum of 10 residential units. As such the following must be assessed to determine the C.B.C. for the City:

- 1. Determine the amount of anticipated development and redevelopment that will be eligible to have a C.B.C. imposed on it by reviewing the most recent growth forecast information, applications in the development process, etc.
- 2. Estimate the land values of the eligible developments/redevelopments in consultation with City Realty staff based on recent appraisal available and/or through information provided by an appraiser contracted for purposes of the C.B.C. strategy.
- 3. Determine the estimated funding envelope based on 4% of the land values.
- 4. Estimate the increase in the need for services and the share of the capital costs required because of the development/redevelopment.
- 5. Determine how much of the capital costs relate to the eligible development & redevelopment and complete the formal calculations to determine the percentage to impose for a C.B.C. (to a maximum of 4%)

#### C.B.C. Methodology

The Process of Calculating a Community Benefits Charge under the Act that must be followed

#### Eligible Growth

Estimate the anticipated amount, type, and location of eligible development and redevelopment for a C.B.C.:

High Density Development Only – a minimum 5 storeys with at least 10 residential units

Amount and Location – The location of the high-density growth anticipated has been broken down into 7 areas.

Consideration for the timing of eligible development (i.e. 10 years (2022-2031))

Note the results of the Growth Forecast portion of the study is provided later in this presentation

#### Land Valuation

Estimate the land values of the eligible developments/redevelopments in consultation with City staff and their land appraiser, by location as identified through the growth forecast.

- •The average land valuations have been provided by location, based on the appraisal assessment and an average value per acre is calculated.
- •The growth forecast has also been provided by location to coincide with the land appraisal assessment.

#### Identifying the Increase in Need

Estimates of the increase in the need for facilities, services, and matters attributable to the anticipated development and redevelopment to which the community benefits charge by-law would relate, will be considered:

- Similar wording is included in the D.C.A., "increase in need....resulting from new development or redevelopment"
- The above suggests a link or attribution between the anticipated development and the estimated increase in the need for service
- The approach is similar to a D.C. study but will need to attribute benefit to highdensity units

#### Potential Services to be Considered

The types of growth-related capital that can be included in a C.B.C. can include:

- Non-D.C. eligible services:
  - Services Recently Removed from D.C.: Parking, Airport, Certain Studies,
  - Other Non-eligible D.C. Services: Municipal Administration Building Expansion, Museum, Arts Centre, Public Art, Heritage Preservation, Landfill, Public Realm Improvements, Community Gardens, Space for Non-Profits, etc.;
- Former Services recovered under Section 37 of the Planning Act;
- Parkland Acquisition, except for parkland dedication related; and
- D.C. eligible services (Growth-related capital not included in D.C.).

### C.B.C. Land Valuation and Eligible Growth

City of Guelph 2022 C.B.C. Strategy

#### Land Valuation

|      |   | Average Land Value per Acre |             |             |  |  |  |
|------|---|-----------------------------|-------------|-------------|--|--|--|
|      |   |                             |             | Guelph      |  |  |  |
| Area | Location  | High                        | Low         | Avreage     |  |  |  |
|      | Downtown Secondary Plan Area                    |                             |             |             |  |  |  |
| 1    | (Urban Growth Centre - U.G.C.)                  | \$10,000,000                | \$5,000,000 | \$6,250,000 |  |  |  |
| 2    | Clair Maltby Secondary Plan Area                |                             |             | \$2,000,000 |  |  |  |
| 3    | Guelph Innovation District                      |                             |             | \$1,250,000 |  |  |  |
| 4    | Dolime Quary Area                               |                             |             | \$2,000,000 |  |  |  |
| 5    | Gordon Street Corridor Area                     | \$1,650,000                 | \$2,850,000 | \$2,000,000 |  |  |  |
| 6    | Infill Areas:                                   |                             |             |             |  |  |  |
|      | Downtown Fringe-University of Guelph District - |                             |             |             |  |  |  |
| 6a   | Stone Road Corridor Sub-Area                    | \$2,880,000                 | \$3,520,000 | \$3,200,000 |  |  |  |
| 6b   | Other Neighbourhoods Sub-Area                   | \$750,000                   | \$1,750,000 | \$1,250,000 |  |  |  |

#### Total Land Values for Growth Forecast

- Based on applications in the planning process and assumption included in the Clair-Maltby Secondary Plan, average densities were assigned to each area (e.g., 290 units per acre in the downtown secondary plan, 70 units/acre in Clair-Maltby, etc.) to generate the estimated total acres of high-density land to be developed.
- The land valuations by area were then multiplied by the estimated acres to calculate the total land value by area.

#### **Cost Allocations**

City of Guelph 2022 C.B.C. Strategy

#### Cost Allocations – City-Wide Services

- Allocation between residential and non-residential growth are based on the incremental growth in population and employment as provided by the 10-year growth forecast.
- Approx. 23% of City-wide C.B.C. eligible cost could be recovered (e.g., parking services and growth studies).
- Note that for Parkland and Cultural projects, the Residential/Non-Residential split would change to 95%/5% resulting in approx. 32% of C.B.C. eligible costs to be recovered.
