

To City Council,

As a long-time Guelphite, I am very concerned about the need to preserve and increase parkland in the city. I have attended meetings on the park plan for Guelph and would like to add my voice to encourage City Council to increase the amount of parks in our city. In particular, we need to preserve the area of the old Guelph Reformatory at York Road and Watson Parkway. Please add my name to the list of supporters for this plan at the City Council meeting April 13th

Sincerely,

Patricia Flood
