

Hello. This message is to add my support and encourage the City Council to increase the amount of parkland in our city. I am a long time Guelph resident and supporter of the plan to preserve the lands at the old Ontario Reformatory for public use as parkland. This area is of particular environmental and historical importance. Please add my name to the list of concerned citizens who support this initiative as well as increase the number of green space for public use in Guelph.

sincerely,

Keith Brown
