

Hello Guelph Clerks Department

Please add my comments below as a correspondence to the agenda

As an avid cyclist who goes around to different towns and cities during the spring summer and fall I love to visit cities that are champions of safe and enjoyable Active Transportation. This pedestrian and cycling bridge connecting to the Trans Canada Trail and spanning a beautiful section of the Speed River will be a huge asset to the City of Guelph in terms of attracting tourism.

Also the City has some great breweries as well which ties into my choices of where to spend my tourism dollars
