

Subject: 361 Whitelaw Road

I will be living beside the proposed development and can't say I am favour of it. I guess I just can't understand why we need more high density residential in this area.

I do understand that something will be built on this land eventually. But my concerns remain the same as before. The wild life, the peace we currently have, the future traffic and congestion. We will each have to deal with them in our own way.

My main concerns are the future traffic congestion and parking for the proposed development. I am all for traffic calming measures on Whitelaw Road and feel they should have been installed awhile ago. I understand this was proposed and rejected by my neighbours in the past. I am sure that the future traffic with this application will further the need for this to be investigated again, or perhaps it could be rolled into this project.

The City knows how the local area feels and we can only trust in your decision, and hope our needs are addressed.

Kind regards,
Robert Askett
