

Hello

My name is Wes Henry and I am a Veteran. I fought for rights & freedoms. I have asked my neighbour to write a letter with me since I do not have the internet, an email or dexterity to write it myself. I will however sign the letter below

The proposed development of 1166-1204 Gordon St South is very concerning to me.

I have worked hard to live in a safe & quiet environment and that will be taken away from me if you allow the apartment buildings to go up as well as access to Landsdown Dr. Our street is definitely not equipped for even half that traffic. We have already lived a nightmare with neighbouring buildings using our road as a parking lot. Tearing down many mature trees, destroying the habitat of various animals, not providing any green space and a ridiculously low amount of parking is beyond frustrating, dangerous & thoughtless. I am on well water. What is going to happen to my water supply if this development continues? What is being done to protect my safety, privacy and wellness? This is not the Guelph I have grown old in.

Regards, Wesley Henry
