Why is it not possible to comply with the Zoning Bylaw?

Please describe the reasons why the variance(s) are needed * ?

We would like to remove the existing open front porch and replace it with an enclosed front porch that is heated and is living space. The reason we are doing this is to provide the family with a front mud-room entryway that includes closets and storage and a 1/2 bath.

As per the way we would like to use the space, we would like the entry to come out the front of the porch - requiring steps out front that would impede on the minimum setback. The front porch currently exists and we do not want to change the footprint, but include stairs coming out the front.
