

Committee of Adjustments,

Regarding the application for an outdoor patio at 60 Ontario At, we are writing to express our full support. A miracle has occurred on that corner, transforming a decaying garage into a vibrant community space. These three micro businesses are worth more than a dozen new chain franchises when it comes to adding charm and unique jewels to the Royal City's crown.

Our visit to the site this week was our third since opening. Every time, we've thoroughly enjoyed ourselves and had a chance to meet neighbours and fellow Guelphites for conversation and fun. The atmosphere is consistently warm and inviting. It's become such a unique experience that last time we brought along friends from Toronto to show it off.

A patio would only improve on this winning formula. We've already seen improvements downtown with the addition of patios, and that success can extend into the Ward, too. With all the growth happening in and around that neighbourhood, a central gathering place with some outdoor space is exactly what's needed.

Please support continued success at this site and in the Ward by approving the patio application.

Thank you,

Brad & Suzanne Carter
