

RE: 60 ONTARIO Street Application to establish a shared outdoor Patio

To the Committee of Adjustments

I would like to express my support for the application before you on June 8th for the Shared Outdoor Patio at 60 Ontario Street.

I live just a few doors away from this location. I have seen the current users of the property, (bar, coffee shop and gallery)- be very respectful of the neighbours, and they are an asset to the area, A patio would further enliven this section of the ward.

I am presenting a one day festival in the Ward in September and I hope to make this location the hub for the activities- and I've spoken to lots of neighbours who see this as something that would be of benefit to all

Thanks for including my comments.
