

Dear Clerk's office and committee of adjustment members.

I am opposed to the variances being requested because I feel they are not minor in nature.

The site of the patio will affect the sight line if I'm driving and stop at the Stop sign on Arthur St. This will also impact pedestrians and cyclists as they will not be seen.

The noise will also be an issue as there will be music playing loudly and late in the night. This is a residential area and not an area for a bar and all the other things that come with it being here.

These are just a couple of my thoughts on this. I think there are more that are opposed to this but have been unaware of what is happening in our neighborhood.

Regards, longtime resident of Ontario St. (over 50 years)

Maria Marchesano
