

Mayor
Cam Guthrie

I would like to take this time to say
I'm intrigued about your overall conclusion
on the issue downtown.

Thoughts from first article
to bring insight to the issue for a better
outcome.

I started a petition to seek other options
and to help be a voice.

Thought after reading second article
now thought and reflection went into this.

Amazing!

words from the community
those who set up tents downtown

"It's safer in this particular spot"
"Didn't want to be far from the services"
"we try our best to keep it clean"

My view they have done well cleaning up

A Home is a Home and comes from the
heart and soul

We the undersigned citizens of the City of Guelph; demand that our elected representatives do more to address the current housing crisis within the city. We ask that they look for serious solutions and involve all levels of government and other non-governmental agencies to affect real positive change that benefit all of our fellow citizens. We ask that our City Council Members as well the Mayor, immediately withdraw the motion regarding encampment removal. This only moves the symptoms of much greater issues from being front and center. We seek and expect real solutions from you and not simply disguised animus.

We the undersigned citizens of the City of Guelph:

"Demand our elected representatives do more to address the current housing and food insecurity issues that are creating concurrent, merging, multiple and ongoing crises facing our city and fellow citizens."

We ask that they our elected representatives at all levels of government work to seek serious solutions and involve: all relevant government and non-governmental agencies to affect real positive change that benefit and support all of our fellow citizens.

We ask that our City Council Members as well the mayor; immediately withdraw the motion regarding encampment removal, until acceptable and real remedies are addressed.

This only moves the symptoms or hides the tip of the proverbial iceberg.

Let's all work together on the greater issues from being front and center. We seek and expect real solutions from you and not simply disguised animus.

We the undersigned citizens of the City of Guelph:

"Expect, Demand and Deserve more from our elected representatives to do more to address the current housing and food insecurity issues that are creating concurrent, merging, multiple and ongoing crisis facing our city and fellow citizens."

We ask that they our elected representatives at all levels of government work to seek serious solutions and involve: all relevant governmental and non-governmental agencies to affect real positive change that benefit and support all of our fellow citizens.

We ask that our City Council Members as well the mayor; immediately withdraw the motion regarding encampment removal, until acceptable and real remedies are addressed.

The current motion as proposed by the Mayor, simply removes the symptoms from view or hides the tip of the proverbial iceberg. It does nothing to address real issues in front of us.

Let's all work together on the greater issues from being front and center. We seek and expect real solutions from you and not simply disguised animus.
