

Hello,

I would like my comments shared for the upcoming meeting around Cam Guthrie's proposed Bylaws to be discussed on Friday, November 10th.

Everything listed under item 5 is already against the law, so these by-laws feel performative and political in nature. The mayor is being dramatic and petty. The encampments are a direct result of a lack of a social safety net combined with a complete lack of affordable housing. The mayor is not doing his job. The encampments are a representation of the growing income divide and our failure as a country to address it. The mayor is being cruel.

Please have them shared for the upcoming meeting
Arden DeMarco
