

Hi,

I think that this motion is ridiculous.

I would recommend you cut out everything but section 2.

There are already more than enough cops downtown, so adding these responsibilities for by-law seems absolutely redundant.

Targeting open use of drugs leads to private use of drugs and therefore increases the risk of death (greatly).

The fact that this motion is based on not wanting to see the effects of the problems created by the neglect of all levels of government is upsetting.
