

To whom it may concern,

I've lived and voted in Guelph for over 10 years and have watched the city continuously fail it's houseless and precariously housed community members. With nowhere else to go and extremely limited support, where else do you expect our neighbours to live than in tents and encampments? If you claim to serve the members of Guelph then serve ALL the members, not just the picture perfect ones.

No one choses to live in a tent in front of city hall because they think it's fun and have other options.

Do better.
