

The Secretary-Treasurer of the Committee Of Adjustment

Regarding the application A-1/24 51 Alice st.

I would like to add to my concerns about the proposed 2 story attached addition. This would greatly change my back yard. It would be very close to the property line. The height of the building would have a great impact of the amount of sun I receive. Currently I do have sun but with an addition that close the amount of sun would be lost. As a result my property and back of house would become dark.

Sincerely Bonnie Lambert
