

# Outdoor Sport Field and Surface Strategy

We're here to provide our project objectives, project timeline, and ask you to provide feedback.

We would like you to tell us:

1. How you use outdoor sport fields and surfaces? What improvements are needed to improve user experiences?
2. Are there specific accessibility needs for sport fields and courts (for users and spectators) that we should be aware of?
3. What emerging trends or sports we need to consider in our strategy (e.g. wheelchair baseball)?

# Next steps

- Explore current state, desires and needs, 2024
- City-wide engagement Q2, 2024
- Develop strategies and recommendations, 2025
- Draft Outdoor Sport Field and Surface Strategy, early 2026

## Recommended motion

That staff continue to engage the AAC throughout the Outdoor Sport Field and Surface Strategy at key milestones.
