

Good day, I am life long Guelph resident living and paying taxes in downtown Guelph. I Just wanted to voice my support on the proposed "public space use bylaw". I am 100% in favour of this bylaw. The residents of Guelph need to feel safe when downtown. Encampments have no place in our downtown core, parks or other public spaces. We also need to consider the impact these encampments are having on our business community in our downtown.

It's time we take our city back.

Regards,
Joseph Baggio
