Hi Trista,

Following up on my earlier voicemail message, I would like to advise that we have been working closely with Shophan over the past couple of weeks and he has been very helpful in working with us on a mutually satisfactory engineering solution for this application. We are getting close, but just need a little more time.

We feel comfortable and have confidence this will come together to a positive outcome, therefore on behalf of the Owner we would like to request a Deferral of our application from the December 10 Agenda. We believe we should be in a position to bring this back to the Committee within the next month or two, and we will keep you apprised of our progress.

Thank you

Chris
