Re: Connect Tech Inc.
42 Arrow Road
Site Plan: SP14 B028
Letter of Compliance
City of Guelph

This letter is to *certify** that, 42 Arrow Road, Guelph, Site Plan SP14 B028, the site grading and stormwater management has been completed in general compliance of the approved drawings dated December 18, 2014, and in accordance with the City's standards, and the Ontario Building Code (OBC 2012).

One exception to the above relates to the garbage system which was revised from Moloks to the Earth Bin system. The Earth Bin system is shown on the updated drawings, Revision 5, dated 06/05/2015, which are attached to this correspondence.

The owner has extended the west side roof leaders closer to the Fair Road sideyard swale which does not affect the SWM or grading design.

In our opinion, site grading and stormwater management servicing is functional and operational in accordance with the approvals of the City of Guelph.

All of which is respectively submitted.

Yours truly,
GM BLUEPLAN ENGINEERING LIMITED
