

Downtown Guelph Heritage Conservation District Study

Presentation:
Jack Mallon, Heritage Planner

What do Heritage Conservation Districts do?

HCDs help manage change happening in the community so that it enhances and complements the area's unique character by:

- Identifying what is significant about the district's heritage
- Creating policies to conserve what is significant
- Outlining guidelines for new development to be compatible with the district character.
- A district does not prevent change or accessible upgrades to buildings
