

Opposed to this development - too much density, obstructed views of Church, not suitable for student housing or a tower of housing generally, inadequate parking and traffic flow, and will change the character of the immediate vicinity.

Skyline is known to be a for-profit rental company that does not add significant value to the community other than simple economic benefit - not affordable housing and not a suitable place to build a tower.

Keep carden street, your city hall area and downtown Guelph quaint! It's what makes the middle of the downtown core so unique.

Thank you,

Denis

Ward 5
