Dear Mayor and Members of Guelph City Council,

I am writing in strong support of a renoviction bylaw and the related proposed motions. I believe a bylaw is a critical step in protecting tenants and preserving affordable rental housing in Guelph. The bylaw would provide much-needed oversight and regulation to discourage “bad faith” renovictions for the purpose of raising rents.

I urge you to approve these motions and move forward with implementing a renoviction bylaw. Thank you for your attention to this important issue.

Sincerely,

Suzanne Swanton
Resident, Ward 5
