Dear Mayor Guthrie and Councillors,

I concur with all the points laid out in detail by Ms. O'Neill (letter Sept. 15 2024)

This proposal is seriously missing the mark for an appropriate build on this site. I'm surprised Mr. Fischer and the Mezcon Professionals have not placed more care and creativity in putting forward a proportionately scaled design for this historic section of Arthur Street. I would suggest to them that taking a second look at the environ will produce a far more agreeable project in the second iteration we wish to see. What a disappointment and a missed opportunity.
