

Rack, Ride 'N' Roll

1

Release the bike rack by squeezing the rack handle upwards. Unfold the bike rack into the loading position.

2

Lift your bike into the rack. Fit each wheel into its labelled slot, starting with the front tire.

3

Secure the bike rack wheel lock on your bike. Don't use your own bike lock!

Hot tip:

Be sure to let the Guelph Transit Operator know you will be using the bike rack before getting on, and off, the bus.
