

Dear all – the reason for my letter is to write about strengthening and preserving the Old Reformatory as Heritage, and have it transformed to an Urban Park, the plan proposed does not provide enough guarantee that the mature trees, ponds and waterways will be preserved. I do hope that the Council will evaluate what the people of Guelph have been campaigning for years, and that is to ensure that this place is preserved as is, with the Heritage Conservation plan.

We all have seen what climate change is doing, we need to strengthen our green spaces to help avoid any potential floodings.

Most sincerely,

Claudia Espindola
