

I am writing today about the newly released draft Reformatory Heritage Conservation District Conservation Plan that is on a City Council agenda for November 13th, 2024.

I am a supporter of the Yorklands Green Hub and understand that they find this draft Conservation Plan very disappointing with a need to be strengthened throughout. I was disappointed to hear that it minimizes heritage protections currently in place and makes them secondary to a weak conservation plan.

I support a strong Conservation Plan and I encourage you to evaluate all the feedback you get to ensure that the Heritage Conservation Plan is commensurate to the Heritage Value to our community.

Thank you for your consideration.
