

Dear Mayor and Members of Council:

My wife and I reside at [REDACTED] Arthur St North, near the above described 8 Mitchell St property and proposed development.

While we are away at a family funeral on December 10th and unable to attend at the Planning Council meeting, I have witnessed and share the high level of concern in our community about the present configuration of the proposed development.

We join our voices to all who are requesting a one year "hold" period for development of the property. We are among the many families willing to contribute to the cost of a heritage conservation district study to be led and funded by the Wolfond Resident's Association.

Thank you for considering our request.

Sincerely, Stanley Bunston
