

Process for Moving Accessible Spaces during the Seasonal Patio Program

Paul Hutchison, Supervisor, Traffic
Engineering

Alex Jaworiwsky, Manager, Tourism and
Destination Development

February 18, 2025

Process for Moving Accessible Spots

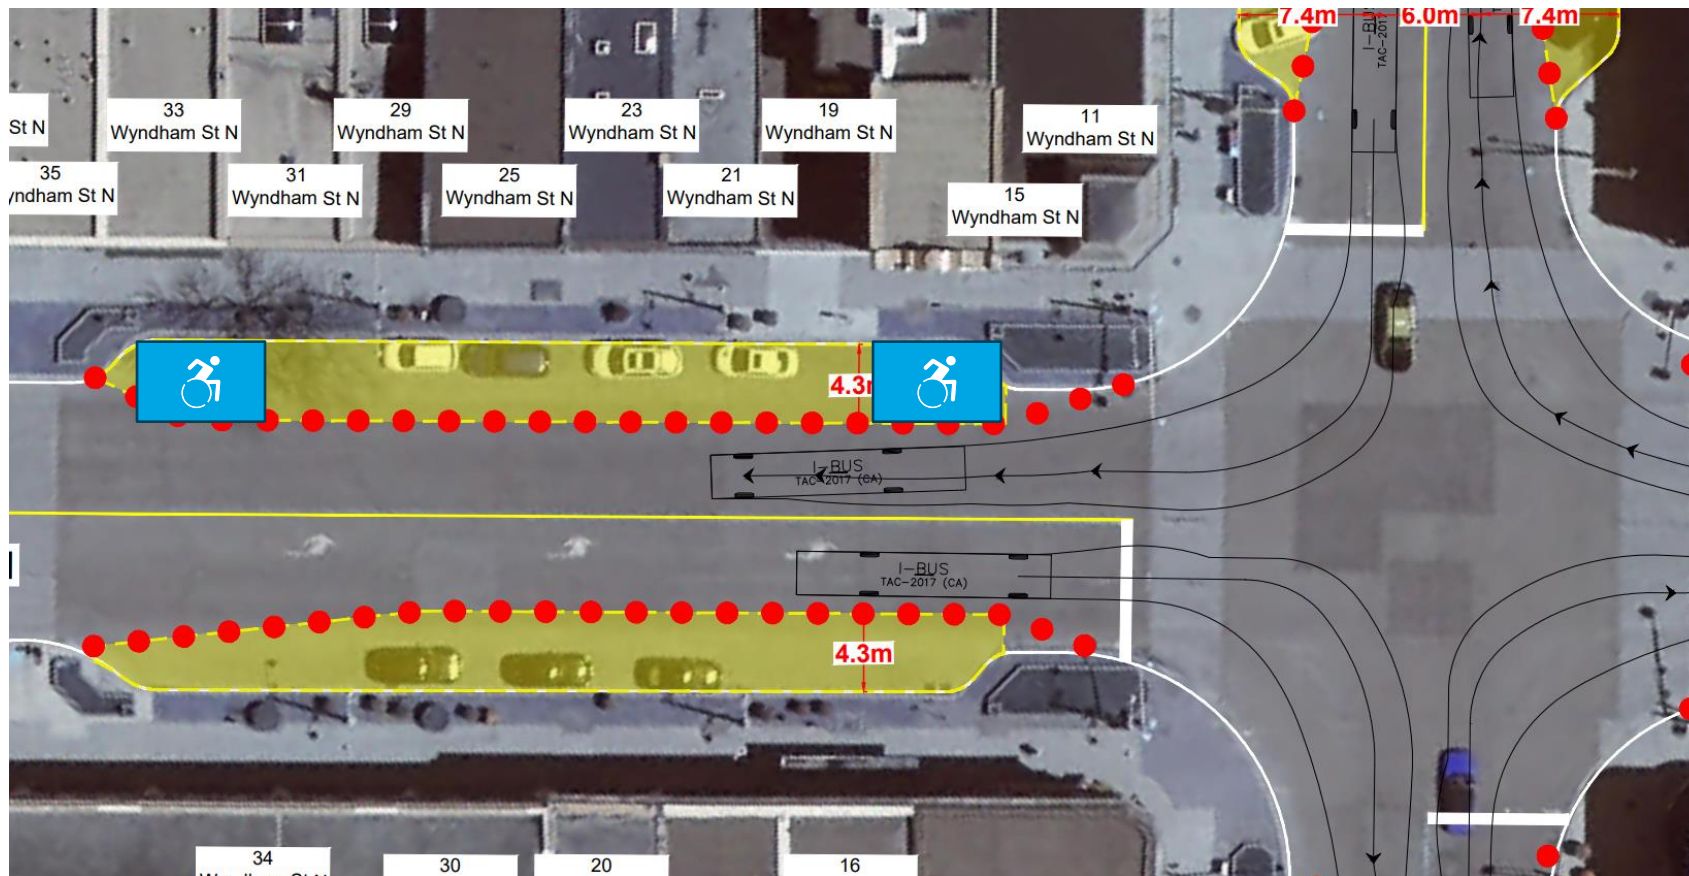

Traffic Engineering staff review current location of accessible parking stall requiring relocation and determine new suitable location.

Work request completed by Traffic Engineering staff and actioned by Operations team.

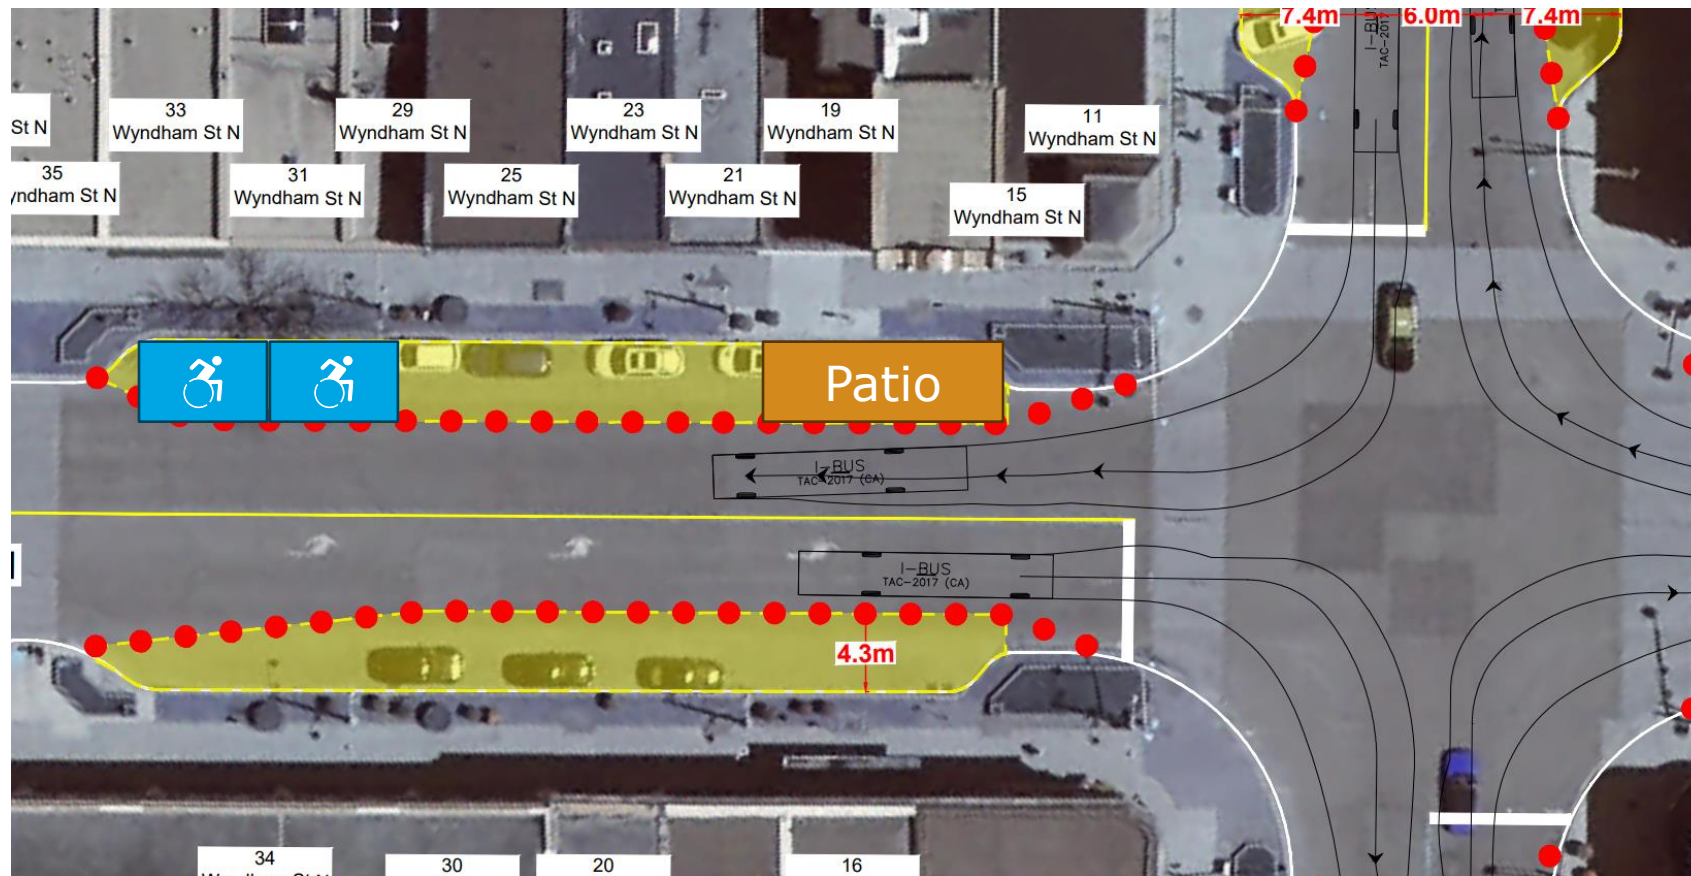

Current Considerations

Review location of current accessible parking stall and ensure any relocation(s) are focused on closest available location, considering AODA compliance (curb drop, appropriate stall dimension).

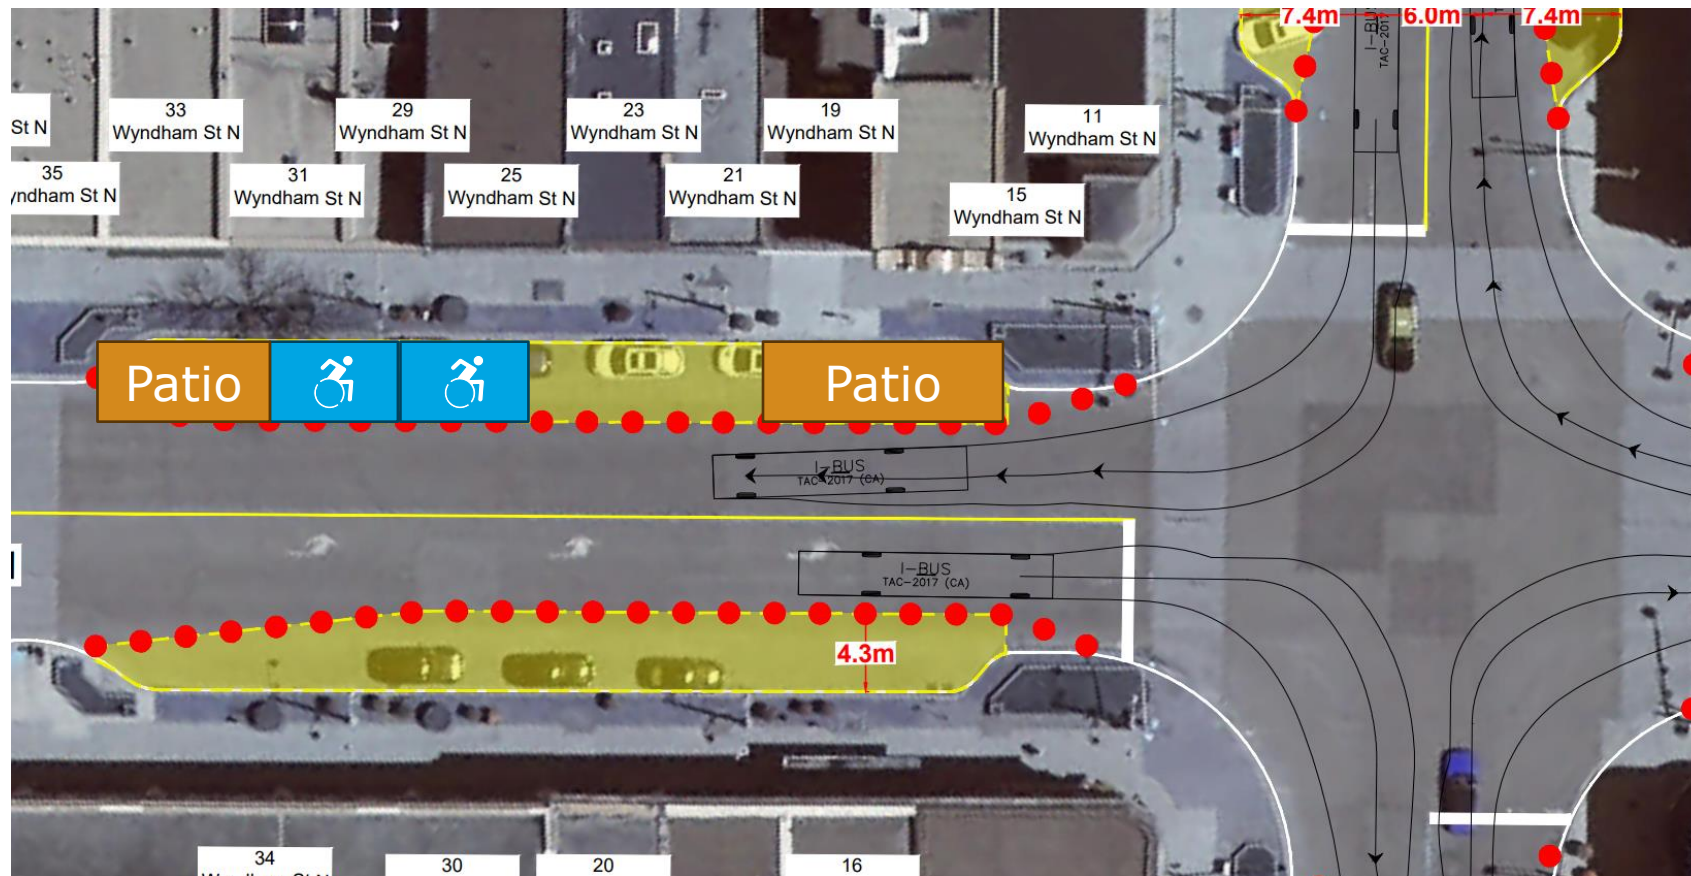

Process Example – No Patio Installed

Process Example – Installed Patio

Process Example – Two Installed Patios

Recommendations

The Accessibility Advisory Committee receives the information on the Process for Moving Accessible Spaces during the Seasonal Patio Program, dated February 18, 2025.

The Accessibility Advisory Committee recommends that staff refer to the meeting on February 18, 2025 and consider [recommendation] on the Process for Moving Accessible Spaces during the Seasonal Patio Program.
