

Vision Zero Guelph: High-Risk Network

- Highest priority roads
- High priority roads

The High-Risk Network, shown by red and yellow lines on this map, helps us prioritize our Vision Zero actions. Solid red lines indicate a higher level of priority compared to the dotted yellow lines. Together they highlight the areas of highest risk within Guelph's entire road network.

Whether we're planning intersection upgrades, adding pedestrian crossings, focusing speed enforcement, or learning about local safety concerns, we're directing our actions where the highest risks exist in the city.
