

Hello,

It would be a great idea having radar speed displays warning the driver of speed and upcoming camera.

There's lots of stories of people getting multiple tickets without even warnings.

As well... it would be extremely helpful if at a radar speed displays, the posted limit you are supposed to be traveling at... for example going south on Elmira road, just before crossing Willow road.. there's a radar speed display and there's no where along that road from Speedvale to Willow, telling you how fast you should be going.

Thank you for reading my suggestions.

Nancy Nicol
