NATURE AND EXTENT OF RELIEF APPLIED FOR (variances required):

An application was approved by the Committee of Adjustment in 2011 (A-17/11) to permit "the sale of pet foods, pet related supplies and accessories and services". Based on planning staff comments at the time, the approval limited the size of the use to 2,500 square feet.

Due to the success of this business a further variance is requested to Section 6.4.3.2.5.1 to permit this same use to

expand beyond 2,500 square feet.

No other variances are necessary. The plaza is fully built, and the planned expansion of Global Pet Foods will be accommodated by a simple move from current tenant space to vacant space located in another building on site.

Why is it not possible to comply with the provision of the by-law? (your explanation)

More floorspace is required for Global Pet Food to grow with its customer base.

As noted above, the expansion can be efficiently accommodated utilizing vacant space that already exists on the site, as generally shown on the attached site plan.

The approval of this application has a number of benefits, including 1) More efficient use of already constructed services, 2) Creates a more fully leased up, vibrant site, and 3) Increases tax base.

As existing vacant space is available, and site services are all currently in place, the approval of this application will enable a seamless on-site expansion of this local business, with no negative implications.
