

Hello my name is Jonathan Thibault. I live at [REDACTED]. My backyard is directly across from the application B-52/25 which has been submitted by 4 June ave. Myself as many of my neighbors are against putting such a large development shoved in between 6 family residential units. I am requesting that the application B-52/25 be deffered until a later date and if possible even denied. The person who is intending to do this to our neighborhood is only looking to maximize profits. He already rents out rooms in the house and rents his garage as an apartment. This is an older neighborhood with many being here for over 30 years. We belove this will drop property value of our neighborhood. This application will also be done 8 houses down from June ave public school.

Thank-you

Jonathan Thibault
