## Remedial action and mitigation

### Remediated soils

Estimated quantities of the soil, if any, originating at and remaining on the RSC property that have been remediated, at a location either on or off the property, to reduce the concentration of contaminants in the soil. Indicate the remediation process or processes used and the estimated amount of soil remediated by each identified process.

Soil remediation process	Estimated quantity of soil (in ground-volume in cubic metres)

### Description of remediation

Description of any action taken to reduce the concentration of contaminants (including soil removals) on, in or under the <u>RSC</u> property.

### Soil or sediment removed and not returned

Estimated quantities of soil or sediment, if any, removed from and not returned to the RSC property.

Estimated quantity of soil (in ground-volume in cubic metres)	
Estimated quantity of sediment (in ground-volume in cubic metres)	

### Excess soil deposited at the property

Estimated quantity of excess soil, if any, being deposited at the RSC property, not including any soil that may have originated at but been remediated off the record of site condition property and that is identified in section 28 of Schedule A

Estimated quantity of soil brought to the property (in ground-volume in cubic metres)

**Ground water control or treatment measures**

Ground water control or treatment measures that were required for the RSC property prior to the certification date for the purpose of submitting the RSC for filing.
Ground water control or treatment measures that are required for the RSC property after the certification date.

Estimated volume of ground water, if any, removed from and not returned to the RSC property.

Estimated volume of ground water (in litres)	
--	--

## Other activities including risk management measures

Constructed works that prior to the certification date for the purpose of submitting the RSC for filing, were required to control or otherwise mitigate the release or movement of known existing contaminants at the RSC property.

Constructed works that after the certification date, are required to control or otherwise mitigate the release or movement of known existing contaminants at the RSC property.

## Monitoring or Maintenance

### Soil Management Measures

Soil monitoring requirements or any requirements for care, maintenance or replacement or any monitoring or control works for known existing contaminants, if any, on the RSC property, after the certification date.

## Ground water management measures

Ground water monitoring requirements or requirements for care, maintenance or replacement of any monitoring or control works or known existing contaminants, if any, on the RSC property, after the certification date.

## Remediated or removed soil, sediment or ground water from near property boundary

Has any soil, sediment or ground water at the RSC property that is or was located within 3 metres of the RSC property boundary been remediated or removed for the purpose of remediation?

No

## Qualified person's statements and certifications

As the qualified person, I certify that:

<input checked="" type="checkbox"/>	A phase one environmental site assessment of the <u>RSC</u> property, which includes the evaluation of the information gathered from a records review, site reconnaissance, interviews, a report and any updates as required, has been conducted in accordance with the regulation by or under the supervision of a qualified person as required by the regulation.
<input checked="" type="checkbox"/>	A phase two environmental site assessment of the <u>RSC</u> property, which includes the evaluation of the information gathered from planning and conducting a site investigation, a report, and any updates required, has been conducted in accordance with the regulation by or under the supervision of a qualified person as required by the regulation.
<input checked="" type="checkbox"/>	The information represents the site conditions at the sampling points at the time of sampling only and the conditions between and beyond the sampling points may vary.
<input checked="" type="checkbox"/>	As of 2025/01/08, in my opinion, based on the phase one environmental site assessment and the phase two environmental site assessment, and any confirmatory sampling, there is no evidence of any contaminants in the soil, ground water or sediment on, in or under the <u>RSC</u> property that would interfere with the type of property use to which the <u>RSC</u> property will be put, as specified in the <u>RSC</u> .
<input checked="" type="checkbox"/>	Ground water sampling has been conducted in accordance with the regulation by or under the supervision of a qualified person as required by the regulation.
<input checked="" type="checkbox"/>	As of 2025/01/08, in my opinion, based on the phase one and phase two environmental site assessments and any confirmatory sampling, the <u>RSC</u> property meets the applicable full depth generic site condition standards prescribed by section 36 of the regulation for all contaminants prescribed by the regulation in relation to the type of property use for which this <u>RSC</u> is filed, except for those contaminants (if any) specified in this <u>RSC</u> at Table 2, Maximum Contaminant Concentrations Compared to Standards Specified in a Risk Assessment.
<input checked="" type="checkbox"/>	As of 2025/01/08, the maximum known concentration of each contaminant in soil, sediment and ground water at the <u>RSC</u> property for which sampling and analysis has been performed is specified in this <u>RSC</u> at Table 1, Maximum Contaminant Concentrations Compared to Applicable Site Condition Standards.
<input checked="" type="checkbox"/>	I am a qualified person and have the qualifications required by section 5 of the regulation.
<input checked="" type="checkbox"/>	I have in place an insurance policy that satisfies the requirements of section 7 of the regulation.
<input checked="" type="checkbox"/>	I acknowledge that the <u>RSC</u> will be submitted for filing in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by

	the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.
<input checked="" type="checkbox"/>	The opinions expressed in this RSC are engineering or scientific opinions made in accordance with generally accepted principles and practices as recognized by members of the environmental engineering or science profession or discipline practicing at the same time and in the same or similar location.
<input checked="" type="checkbox"/>	I do not hold and have not held and my employer, if any, does not hold and has not held a direct or indirect interest in the RSC property or any property which includes the RSC property and was the subject of a phase one or two environmental site assessment or risk assessment upon which this RSC is based.
<input checked="" type="checkbox"/>	To the best of my knowledge, the certifications and statements in this part of the RSC are true as of 2025/01/08.
<input checked="" type="checkbox"/>	By signing this RSC, I make no express or implied warranties or guarantees.

By checking the boxes above, and entering my membership/licence number in this submission, I, Breton Lemieux, a qualified person under section 5 of O. Reg. 153/04 am, on ,

a.	signing this RSC submission as a qualified person; and
b.	making all certifications required as a qualified person for this RSC
<input checked="" type="checkbox"/> I Agree
