

To Whom It May Concern,

I have worked in Guelph for the past 14 years, and I am writing to express my strong support for the proposed redevelopment of 343 Waterloo Avenue. This mixed-use project reflects a thoughtful, forward-looking approach to urban growth—one that aligns closely with the City of Guelph's priorities around environmental sustainability, accessibility, and housing affordability.

The proposal addresses key community needs by including accessible residential units, supporting long-term affordability, and integrating environmentally responsible design. At a time when cities across Canada are searching for innovative solutions to the housing crisis and the climate emergency, this project demonstrates how development can thoughtfully balance private investment with public benefit.

By combining commercial and residential uses in a walkable, well-connected location, the development advances Guelph's vision for a more inclusive, sustainable, and less car-dependent future. I fully support this initiative and believe it reflects the kind of smart, values-driven planning that will benefit our city for years to come.

Sincerely,

Lori Struk
