

Good morning

I am writing in support of the proposed building at 343 Waterloo Ave. Morgan and Martha Adams are turning a very bad situation into an opportunity to provide rental units to benefit people in the city.

I walk my dog in the neighbourhood around 343 Waterloo Avenue almost daily so I am familiar with the area. I consider it a good location for a 4-storey mixed use building. Initially I was concerned about parking but now understand their use of tandem parking to maximize the use of the parking area. The use of heat rather than salt to manage snow and ice is intriguing since overuse of salt is rampant in the city. It would be great if these initiatives became commonplace. I also appreciate that the main floor will be a business office for Morgan and Martha so they truly are part of the neighbourhood.
