

Dear Mayor Guthrie and City Councillors,

I'm writing to share my support for Laura McQuillen as she puts her name forward for the vacant city councillor position. I've had the chance to work with Laura over the past year as a fellow teacher at King George Public School, and I think she would bring a really valuable perspective to council.

Laura is thoughtful, grounded, and deeply committed to her community. She shows up for people, whether it's her students, colleagues, or neighbours and approaches challenges with both care and common sense. She's a strong communicator, a great listener, and someone who genuinely wants to make things better for the people around her.

As a resident of Guelph and someone who cares a lot about inclusive, compassionate leadership, I'd love to see someone like Laura at the council table. I believe she would represent our city and Ward 6 in particular with integrity and a strong sense of purpose.

Thanks for your time and consideration.

Sincerely,
