

Hello Cam,

I hope this email finds you well!

I'm emailing today on behalf of Michael Keegan who is seeking a seat on council to be the voice of ward 6.

I met Michael after about a month of moving into our home in Guelph through a small Tennis group at St. Georges Park. Since knowing him, he has always been passionate about politics and offers thoughtful discord on city matters. He consistently offers compelling insights on provincial, federal and global politics which adds lively discussions to our group of friends. I believe his in depth understanding of financial responsibility through running a successful business, will complement his awareness and understanding of important issues our city is currently facing. I know he will be committed to helping Guelph become the best city it can be.

I appreciate your time Cam.

Have a great day.

Colin Imrie
