

Greetings, I'm messaging from Cambodia where I'm touring with a cycling group through Vietnam, Cambodia & Thailand. Cycling tourism is increasingly warmly welcomed & promoted world wide, creating environmentally sustainable business opportunities and jobs.

I encourage you to advocate in tomorrow's budget deliberations for continued investment in Guelph's active transportation, rather than deferral, for our health, well-being, affordability, community connection and tourism opportunities, especially as the Goderich to Guelph trail is gaining popularity.

Kind regards,

Kathleen Vanessa Hyland
