

Hello, I write to you today in both my personal and professional capacities. I am a resident of Guelph and Conservation Director for Wildlands League. I submitted written comments in 2024 and attended an open house on this matter.

The Conservation Plan is not a land planning document and is an inappropriate place to enshrine residential development in opposition to the secondary plan and current zoning.

Our organization recently hosted a community event in Guelph highlighting the city's incredible natural heritage and how important it is that the city does more to increase the amount of protected nature within its boundaries. We were delighted to reach ~200 Guelphites in a wicked snow storm which is a testament to residents, not even a snow storm deterred them.

We call on the city to do more to safeguard its precious natural and cultural heritage. It's vital to ensuring a livable city for us all today and for all residents in the future.

Thank you for your consideration of this important matter.

Sincerely,

Anna Baggio
